

MAIN FACILITIES

TORRE D'ARA

Year:	2020
Location:	Mataró, Barcelona
Work stations:	186 work stations, 30 offices (2-12 people), 7 meeting rooms, multipurpose room, reception area and coffee area.
Programmes:	Tec, Slat C, Clic, Flip, Trazo (visitor chairs and stools), Be Wood (Relax model, stools and tables), VIVA meeting (high and low tables), Plenum lockers.

The Torre D'Ara coworking space was designed with the comfort and well-being of its users in mind applying the Lean2Cradle® methodology. Flexible, healthy offices designed and built according to the principles of the circular economy, the project was conceived and implemented by Construcia.

MAIN FACILITIES

TORRE D'ARA

Clic desks and Slat C chairs have been used to furnish the main spaces in the building, which consist of 30 offices with capacity for 2 to 12 people and a coworking area with up to 186 work stations. Torre d'Ara also has 7 meeting rooms, equipped with Tec tables, and a multipurpose room with Flip folding tables.

The reception and coffee areas are furnished with the Be Wood, VIVA and Trazo programmes to create friendly spaces which adapt to the needs of their users.
