

CELL MELAMINE PEDESTAL

With the Cell pedestal, not only do we meet your functional storage and meeting point needs, but the possibility of fitting this piece of furniture with a planter means you can follow the trend towards biophilia and bringing a homely atmosphere to the workplace.

STANDARD FEATURES

- ▶ Cable grommets on the sides.
- ▶ Metal brackets for fastening to adjacent desks/tables.
- ▶ Folded sheet metal channel for guiding internal cables between stations.

TECHNICAL SHEET

DESCRIPTION

STRUCTURE

25-mm thick melamine base and top, 19-mm thick melamine sides and shelves, and 12-mm thick melamine central separator.

There are 2 cable grommets on the sides and a 0.8-mm thick folded sheet metal channel for guiding cables inside. Includes 4 cable supports to screw onto the adjacent desks/tables to guide the cables from the cable management channel on the desk/table to the pedestal.

Base with 4 levellers which are accessed from inside the pedestal.

- ▶ The door option has a 19-mm thick melamine door on each side with 2 hinges and a knob. The planter is made of 0.8-mm thick folded sheet metal painted in white (BA). Not suitable for living plants.
- ▶ The option with drawers has 3 fully opening metal drawers made of 0.8 mm thick folded sheet metal in black (NE) on each side. The fronts are made of 19-mm thick melamine with knob. Ball guides. The upper front has a drawer and a 19-mm thick melamine shelf inside. Anti-overturn lock system which prevents two drawers from being opened at the same time.
