

NEXUS 50

DESCRIPTION

Structure

Aluminum profile. Cold-laminated steel plate reinforcements inside.

Side grooves in a steel profile that enables different furniture complements to be installed at different heights.

Double 90° support legs. Legs equipped with levelers manufactured in 35*1.5 mm aluminum.

Side or angle joints at the top of the room divider.

The entire structure receives an anti-corrosive microcrystalline bath treatment, followed by an electrostatic procedure, which includes a layer of epoxy.

Equipped with e-1 mm steel side covers

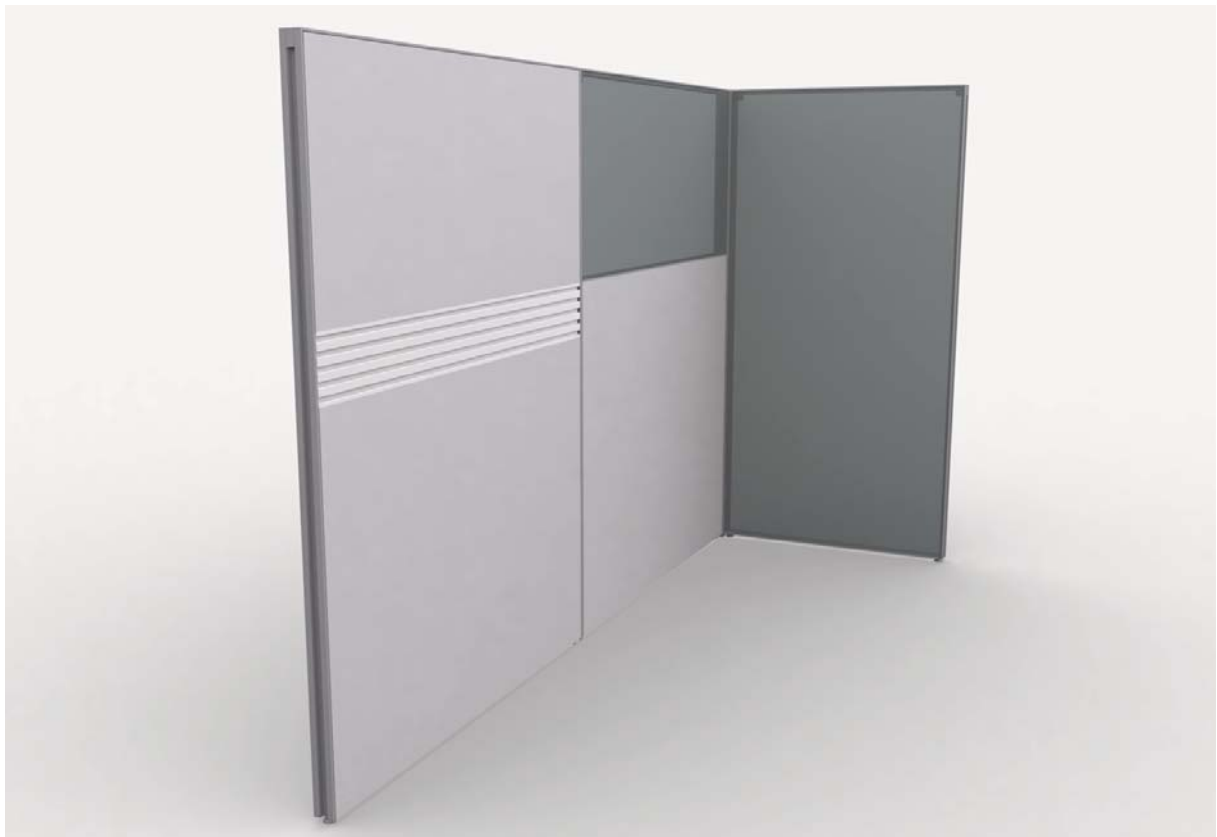

Sound-absorbing room dividers: interior with sound-absorbing cloth and exterior in microperforated e-1 mm steel plate

Combination room divider: interior frame in e-5mm transparent glass and steel

Upholstered room divider: e-8 mm particle board panel with 3 mm foam for noise reduction

Optional features

Built-in aluminum technical panel with 5 guides to support different organizational and filing accessories.
